

Epic Angels awarded Most Ethical Angel Investors in APAC

Epic Angels, a network of female angel investors in Southeast Asia, has been awarded the Most Ethical Angel Investors in APAC by Wealth & Finance International.

Singapore, Singapore Jun 1, 2022 ([IssueWire.com](https://www.issuewire.com)) - The Ethical Finance Awards is a global independent program to recognize the innovation, determination, and ambitions of the leading pioneers who introduce and promote ethical and sustainable finance committed to influencing a brighter, smarter, and cleaner business landscape. This year, the Most Ethical Angel Investor award was awarded to the angel investment network Epic Angels.

Based in Singapore, with investments and investors throughout Asia, Epic Angels aims to make a difference by closing the gender funding gap. Now in its second year, Epic Angels were founded on the belief that one reason female founders are not getting the investment they need is that there are not enough female investors. Epic Angels set out to change this and provide women with a platform to invest, learn, and help incubate more female angel investors who want to be part of the thriving startup scene in APAC.

Founder of Epic Angels, Maaïke Doyer, says; “Only 2.4% of the decision-makers in the venture capital world are female. That has to change. Through education, access, and collaboration, Epic Angels are on track to create impact and scale for female founders and investors alike, which is underscored by this recognition.”

About Epic Angels

Epic Angels is a network of female executives and operators on track to become Asia's largest female-only angel investor community. Epic Angels invest in early-stage startups based in APAC, with at least one woman on the executive team.
