

Frany Dejota surprises the world with the last three releases of hip-hop/rap music.

Francisco Gaspar LLOpis, better known as Frany Dejota, was born in (Valencia, March 30, 1983), is a Spanish musician, artist and dj producer.

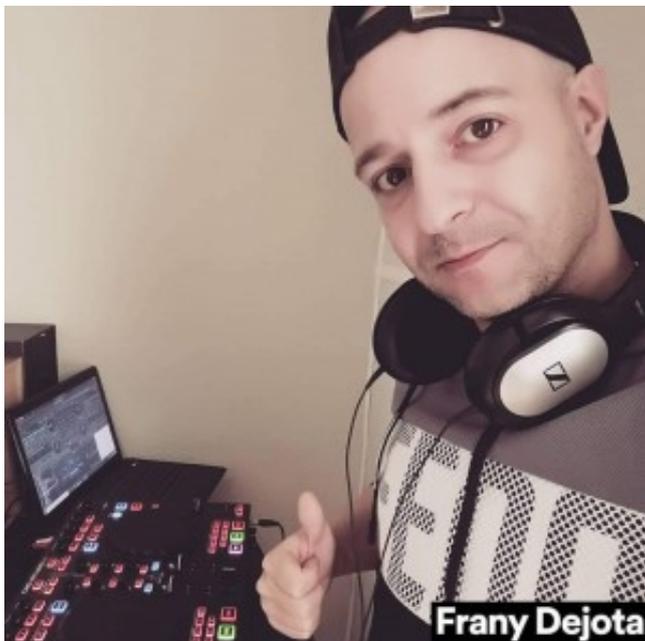

Valencia, Spain Jun 2, 2022 ([Issuewire.com](https://www.issuewire.com)) - He is considered an artistic figure of electronic music. What is expected of the artist and a good dj producer is a plus of spectacle, it comforts to run into professionals who make their sessions much more than mere fireworks. Frany Dejota, unlike many posers, not only dominates how few the raw material he handles, but he also knows how to sniff the

ambient factor to adapt like a glove to the spirit that presides over each occasion.

In those strenuous ceremonies of the dance that it plots, presided over by an electronic bias that marries completely with the alternative, the same goes for the most rabid and current crushing of electro-house and deep-house as the techno and dance classics of all life and even the winks to the electronics of the 90s.

Its only rule is relentless, the law of rhythm, the emotional drive that makes its audience an unconditional hostage of their good work in the cabin, from which there is always space for surprises, unsuspected remixes, and permanent interaction with the track, euphoric cadences that display all their effectiveness, achieving the not always easy mission for everyone to end up with their feet well off the ground.

Frany Dejota surprises the world with the last three releases 'El Barrio del Bronx', 'De mi barrio a tu barrio' and 'Melodías con estilo' of hip-hop/rap music. In addition to his EP of 4 songs 'Delta Luminoso' and 18 releases of electronic music. All new releases of Frany Dejota are available through all the major music stores and music platforms.
