**Lucknow, Uttar Pradesh Jun 30, 2022 ([Issuewire.com](http://Issuewire.com))** - The education sector has witnessed several changes owing to **the growing importance of education**, globally, from the traditional approach of teaching to the digital concepts of the smart classroom. *These changes have occurred due to the introduction of modern technology. **The new modes of education have resulted in the adoption of various solutions and services, which enable schools, colleges, coaching, and other academic institutes to manage their databases and workflow.*** **Education management software is a primary tool for the educational sector** to manage applications such as registration, enrollment, attendance, fee, and many more key element. **In the traditional education management space, there is a huge possibility of errors in accounting due to manual processes.** Moreover, a sizable amount of time and effort gets wasted in traditional offline management, which could have been otherwise utilized to improve the quality of education.

The software, [EasyEduLab](#) is designed to introduce digitalization in manual processes for data management in school and also helps to automate all data management of educational institutes procedures to reduce the possibility of human error. We provide modern education management software enabled by cutting-edge technologies by **which schools, colleges, coaching, and other academic institutes can easily manage, track, analyze and improve their institution's operations.**

[EasyEduLab](#) has been designed and developed for reducing the pressure on management from school.

#### **Modules:**

[> Administration \(Manage School\) > Assignment > Manage Transport](#)

[> Manage Exams > ID Cards > Manage Fees](#)

[> Manage Reports > Certificates > Manage Accounts](#)

Much more...

**It manages all the key elements of schools, colleges, coaching, and other academic institutes like Teachers, Students cycle, Attendance, Exams and Results, Fees, Library, Assignment, Notice, Accounts and Transportation, etc.**

Even with this, We tie-up with some other organization that helps to distribute MICRO SCHOLARSHIP (INR 1000/-) Means - Students now avail themselves of monthly micro scholar while taking simple quizzes based on their academic cycle or standard.

Students, now take 10 min curriculum-based quizzes and get INR 50 scholarship per quiz within 24 hours (INR 1,000 for 20 such quizzes).

[Register Now to Get SCHOLARSHIP>>](#)
