

Madalyn G. Neuwirth, MD, a Surgical Oncologist with Westchester Medical Center

Get to know Surgical Oncologist Dr. Madalyn G. Neuwirth, who serves patients in Valhalla, New York.

New York City, New York Jun 8, 2022 ([IssueWire.com](https://www.issuewire.com)) - A trusted surgical oncologist, Dr. Neuwirth sees patients at the Westchester Medical Center in Valhalla, New York. Her areas of clinical interest include gastric cancer, soft tissue sarcoma, cutaneous malignant melanoma, thyroid neoplasms, parathyroid neoplasms, and adrenal neoplasms.

Founded in 1917, Westchester Medical Center is the regional base of tertiary and quaternary care and is the primary referral facility for other hospitals, serving as a lifeline for millions of people in the Hudson Valley. Its mission includes providing the highest quality care for all residents of the Hudson Valley, regardless of their ability to pay, and providing a network that ensures access to a coordinated continuum of care for its community.

In regards to her educational background, Dr. Neuwirth graduated with her medical degree from the Sidney Kimmel Medical College, before completing her internship and residency in general surgery at the Hospital of the University of Pennsylvania. Finally, she completed her fellowship in surgical oncology at the Memorial Sloan Kettering Cancer Center.

Dr. Neuwirth is board-certified in general surgery by the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

On a professional level, she is an active member of the Alpha Omega Honor Society, the Gold Humanism Honor Society, and the Phi Beta Kappa Honor Society.

Surgical oncology is the branch of surgery applied to oncology. It focuses on the surgical management of tumors, especially cancerous tumors. A surgical oncologist removes the tumor and nearby tissue during surgery. He or she also performs certain types of biopsies to help diagnose cancer.
