

Meet Turnext, an Indian musician and an independent artist from a small town in Himachal Pradesh.

Rapper/Singer/MusicProducer/Mix/Master

Jogindarnagar, Himachal Pradesh Jun 6, 2022 ([Issuewire.com](https://www.issuewire.com)) - Chandresh Kumar is known as "TURNEXT". TURNEXT is an Indian rapper, singer, songwriter, music producer, and mixing-mastering engineer, who is known for his notable work on the studio single "O Jaana (beloved)", which was produced by Jacob Singh.

Turnext has also had a major impact on other Indian singers. Turnext had been in the music business for at least 8 years. He spent much of his time as a kid, hearing all kinds of music coming from different artists and bands that visited the store to buy musical instruments or rent studio time for their records—

TURNEXT has been associated with releasing various Hindi songs in the past. He has also composed and written many raps and songs that have gained popularity over time.

In this section, we will be discussing the life and career of Turnext. He was born in the year 1998 on September 29th. His hometown is Joginder Nagar, Himachal Pradesh, India. Turnext originally wanted to be an audio engineer as he found it to be more exciting and challenging as compared to being a singer or songwriter. However, his affection for music didn't last long, and after a year of learning music production, he stopped and picked up singing also. When people hear him sing, they know

he is a singer and a songwriter. He is also a music producer and mix-master engineer, which he learned by himself.

Turnext was born on the 29th of September in the year 1998 and is currently 23 years old. He was brought up in Manali, Himachal Pradesh. His passion for music began at a young age, and he learned how to compose music and write songs when he was 17 years old.
