Temecula, California Jun 12, 2022 (Issuewire.com) - Net One Click is delighted to announce that medical practitioners who desire to establish or reinvent their online presence, can rely on Net One Click for incredible yet affordable [custom medical websites](#).

The [medical marketing services](#) firm has unveiled a special low-cost [medical website design](#) & hosting package, that provides medical practitioners with a custom branded, search-optimised, and ready-for-business website, for only \$199.

Recent industry studies have revealed that up to 80% of people admitted to starting their search for a new healthcare provider online, while 75% of internet users admit to making judgments about a company's credibility based on their website's design.

As the internet evolves from a simple information exchange platform to a virtual world with digital representations of all aspects of real life, businesses and entire industries are being forced to adapt to the new normal or risk being left behind.

In today's world, websites have evolved to become the primary platforms where most brands and customers interact. And, for a medical practitioner who desires to stay ahead, cultivating a highly competitive website that reflects the brand's unique identity and reputation, is an essential component of any successful marketing system.

"We build websites to produce results." Says Kris Kiler, president of Net One Click "Your practice website should position you as a leader in your market, make it simple for people to learn about your services, provide tools to take the necessary action to make an appointment, and integrate with your other marketing efforts."

Throwing its weight behind its continued ability to outperform client expectations, Net One Click has structured its subscription service to operate on a month-to-month basis, giving clients the power and ease to immediately cancel if ever they feel displeased with its services.

Although priced at just \$199, the [medical website design](#) monthly contract offers clients a wide array of benefits that include unlimited updates, daily backups, optimized WordPress hosting, Google Analytics, local optimization, and more.

Anyone interested in the company's affordable [medical website design](#) services can visit the Net One Click website to request a free consultation.

About Net One Click

Net One Click provides full-service outsourced marketing services to small to midsize medical practices. Our Platform [Medical Marketing](#) System focuses on the strategic development of core assets that provide our clients with a unique competitive advantage to develop, engage, and acquire patients for life. We have developed a unique and proprietary system called [Patient Promoter](#) for generating [5-star reviews for medical practices](#) as well as a low-cost [medical website design](#) hosting experience that delivers high-quality websites for medical practices.

REPUTATION MANAGEMENT FOR DOCTORS: ASK THE PATIENT

Parts of the patient experience that may influence how a patient feels about your practice are:

- Wait times
- Privacy practices
- The cleanliness of your office
- The helpfulness of your staff
- The ease of making an appointment
- Parking availability or lack thereof
- The environment within your practice and how it made the patient feel
- The validity of your practice information online
- The friendliness of your staff on the first phone call or correspondence
- The ease of dealing with the billing department and handling insurance issues
