

NFT transactions made easy as pie at NFT.NYC Week – powered by Mintable and Mastercard

New York City, New York Jun 20, 2022 ([Issuewire.com](https://www.issuewire.com)) - [Mintable](https://www.mintable.app) joined [Mastercard](https://www.mastercard.com) in recently announcing it's working to simplify the NFT purchasing experience. Mastercard is working to enable NFT commerce to ensure that when it comes to purchasing NFTs, the process is easier.

This latest work between Mastercard, NFT marketplaces, and Web3 infrastructure providers as Raj Dhamodharan, Mastercard's Global Head of Crypto and Blockchain explains, could enable the NFT ecosystem to scale.

According to Zach Burks, Founder, and CEO of Mintable, enabling card acceptance will “open the doors for millions of Mastercard cardholders to easily gain access to NFTs.” Mastercard's 2.9 billion cardholders will be able to use their cards on the Mintable platform to complete NFT purchase transactions without having to buy crypto first.

Mintable can be found at booths 208 and 209 at NFT NYC between June 21-23, 2022 at Marriott Marquis Times Square Level 5 where they will be sharing the QR code that can be accessed to receive free NFTs and free pizza pies.

Mintable booth visitors can scan the QR code provided at the booth, on the billboards, and in the brochures to set up an account to receive a free NFT. With the code, NFT holders can receive a free hot slice of pizza at Carnegie Pizza, one of the most famous pizza joints in New York. (200 W 41st St, New York, NY 10036, United States). There are 2,022 free NTFs to be redeemed for 2,022 pizzas.

One lucky NFT recipient out of 2,022 will also win a dinner at one of the Mastercard Priceless Experience restaurants, the renowned Red Rooster, famed for its delectable and authentic American cuisine.

Visit the Mintable booth at NFT NYC and learn more about Mintable's easily accessible NFT marketplace and the "easy as pie" NFT experience and enter the sweepstakes.
