

Noor A. Khaki, DMD, a Dentist with Division Street Dental

Get to know Dentist Dr. Noor A. Khaki, who serves patients in Portland, Oregon.

New York City, New York Jun 14, 2022 ([Issuewire.com](https://www.issuewire.com)) - A biological and holistic dentist, Dr. Khaki is the Owner of Division Street Dental, serving patients in Portland, Oregon. Not only does she love dentistry, but she also yearns to connect with people. She is energetic, and fun and will make sure patients' experience feels comfortable, positive, and encouraging.

"Dentistry is a blessing. I love to connect to people and listen to their stories and make a positive impact in their lives" expressed the doctor.

Born in Jordan, raised in the United Kingdom, and growing up in the United States, she brings a colorful and unique international background. She graduated with her Doctor of Medicine in Dentistry degree from Oregon Health & Science University in 2014 and is currently enrolled in a rigorous 18-month program to obtain her naturopathic certification with the American College of Integrative Medicine and Dentistry (ACIMD).

As a life-long learner under some of the most renowned doctors in her field, Dr. Noor has built a network of medical providers (ND, MD, DO, acupuncturist, herbalists) where she collaborates to create a comprehensive treatment plan that is personalized and customized to her patients. Her education is not just a responsibility she holds dear, but a passionate hobby

In order to remain up to date in her field, she is an active member of the International Academy of Oral Medicine and Toxicology, the Holistic Dental Association, the American Academy for Oral Systemic Health, and the Academy of General Dentistry, and the American Academy of Facial Esthetics.

Giving back to her community, Dr. Noor and her team donate their time and care for people who are vulnerable, disabled, medically compromised, or financially distraught. She is eager to speak before services, and organizations and promote children's health by volunteering at the Portland Public Schools.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.

On a more personal note, Dr. Noor can be found spending her time off with her family at the beach, taking trips to Bend, and hiking up Smith Rock. As a mother of 2 young children, and married to a family medicine physician, they are always out for an adventure. She teaches barre classes as a side hobby and loves to connect with her clients to embody the mind-body-spirit. She has combined her passions as a yoga instructor with her excellent dental knowledge to create a whole-body experience.
