

PheasantTech's product Cloud Forex CRM is now integrated with Vertex FX Trading Platform

Dubai, United Arab Emirates Jun 12, 2022 ([Issuewire.com](https://www.issuewire.com)) - PheasantTech is one of the best Forex Brokerage Solution providers maintaining high quality and a high sense of imagination. With the experience of more than 10 years, we offer everything from Company Formation to White labels, CRM, Digital Marketing, and other advanced technology solutions. We are here to bring a revolution in the Forex brokerage industry with the most advanced Forex Compliance Services and Forex Brokerage

Solutions.

With the adoption of the latest technologies and international standards, we are pleased to showcase a new feather in our cap!! It brings us immensely proud to inform you all that our product Cloud Forex CRM is now integrated with a comprehensive closed-loop turn-key trading platform and that is none other than Vertex FX!!

To date, we used to integrate only MT4 and MT5 platforms with Cloud Forex CRM but with advancements in the technology and expertise of our technical team, we have made a new integration possible with Vertex FX.

10 different programming languages and many other components make this platform ready for Brokerage firms using or willing to use any [Forex CRM](#). When Cloud Forex CRM is integrated with Vertex FX, you as a broker remain guaranteed as far as security, reliability, and flexibility are concerned.

Along with all the salient features of the Forex CRM, you get the following benefits when you go for the Vertex FX Trading Platform:

1) Save time and effort:

As the developer does the whole process of integrating the [Vertex FX Trading platform](#) with Cloud Forex CRM, you don't need extra time or resources for the technical job. With this, we announce Vertex FX as the most budget-friendly platform.

2) A Complete package that meet all your needs:

VertexFX Trader is a real turn-key trading solution for every business model whether Margin Trading, Binary Options, or Physical Delivery, delivered all in one solution to the trader in one account. An all-in-one solution makes this Forex CRM and White Label Solution cost-effective.

3) No Extra to Pay for Plugins - They're Part of the Deal

It is supported by hundreds of third-party plug-ins that have been developed by experienced and independent technology firms and individuals. Being an open-source solution it allows almost every type of integration making it an affordable white label solution.

All these benefits make a stronger integration of Cloud Forex CRM and Vertex FX and it creates a win-win situation for the Forex Brokers as they get a high-tech CRM with a budget-friendly, secure, reliable, and flexible Trading Platform.
