

Rad Web Hosting Enables Automated Cloud VPS Provisioning with WHMCS VPS Reseller Integration

With the latest update of WHMCS VPS Reseller integration from Rad Web Hosting, resellers can now automate cloud server provisioning with WHMCS.

Phoenix, Arizona Jun 30, 2022 ([IssueWire.com](https://www.issuewire.com)) - Rad Web Hosting has announced an update to their WHMCS VPS Reseller module. The plugin provides white-label cloud administration and VPS reselling features to its partners.

Remotely manage and resell VPS Servers with the WHMCS Server module. Thanks to the latest release of the VPS Reseller WHMCS Server module to v1.0.4, users can now achieve hands-free fully-automated server provisioning of cloud VPS servers when configured with WHMCS billing software and Rad Web Hosting WHMCS VPS Reseller module.

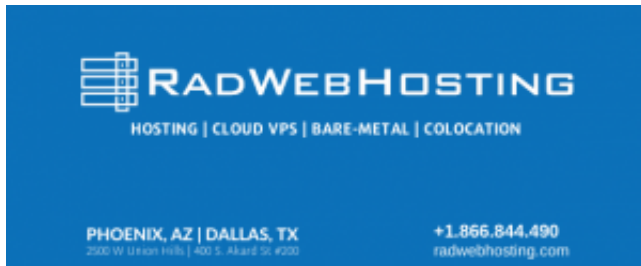

The WHMCS server module provides the ability for resellers to automatically deploy VPS servers directly from their cloud resources based on custom values from order form submission. Now you will have white-label cloud VPS deployment for your clients with seamless service delivery. Your clients will only see your brand and even get full access to the VPS from your WHMCS and with control panel access.

Integrate with ready-made WHMCS module to leverage automated provisioning of Cloud VPS servers with integrated private-label cloud controller. By integrating with Rad Web Hosting VPS Reseller module, leverage enterprise-grade cloud VPS deployments on-demand.

Resellers now have access to their own Virtual Private Cloud VPS cluster with automated server provisioning available with WHMCS. By leveraging on-demand Cloud VPS from Rad Web Hosting,

businesses significantly reduce time-to-market, capital expense, and risk associated with building a cloud data center from scratch.

Since 2014, Rad Web Hosting has been a leading provider of VPS servers with multiple US data center locations. Rad Web Hosting is the provider of choice for SMBs and enterprises spanning an array of industries and originating from over 50 countries worldwide.
