New York City, New York Jun 1, 2022 ([IssueWire.com](https://www.issuewire.com)) - Rosemarie is a registered nurse currently serving her patients in Laurel, Maryland. In order to provide her patients with the best care, she specializes in ICU critical care.

To begin her career, she graduated with her nursing degree in 1984

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province, or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
