

SeraCollection Now Offering Covid-19 Vaccination for Ages 6 Months & Up

Montebello, California Jun 28, 2022 ([IssueWire.com](https://www.issuewire.com)) - SERACOLLECTION NOW OFFERING COVID19 VACCINATIONS FOR AGES 6 MONTHS & UP

SeraCollection Research Services, a woman-owned business and certified leader in testing, vaccinations and clinical research is now offering infant and toddler COVID-19 vaccinations for children 6 months and older. Backed by the Department of Public Health and with proven expertise and experience, SeraCollection will be offering Pfizer vaccinations for ages 6 months to 4 years old and Moderna vaccinations for ages 6 months to 5 years old, as of June 21, 2022.

As a local leader in research and a current research site for multiple Covid-19 pediatric vaccine clinical trials, SeraCollection officials strongly recommend the vaccinations and point to the FDA authorization and the new CDC recommendations and noted that millions of older children have been safely vaccinated across the United States. The vaccines are available for both children and adults at no cost at the two SeraCollection office locations and mobile vaccination sites. Since the start of the COVID-19 Pandemic, Sera Collection continues to respond and remains committed to helping the local community protect themselves from the potentially fatal effects of contracting the COVID-19 Virus. Monica Lopez, Founder, CEO and President of SeraCollection encourages parents to protect their infants and toddlers with the available vaccines. "I encourage our local community parents to choose vaccinations for their children. We have certainly seen some children become very ill due to the virus and we also know they can spread COVID-19 to others who may be especially vulnerable to the virus and its effects." The vaccinations will be offered at two SeraCollection Vaccine Clinics in Montebello.

The two locations are both on Beverly Blvd at 1300 and 3317 W. Beverly Blvd., Montebello, CA 90640. The community-minded company also provides mobile, on-site testing and vaccinations units and provides qualified nurses for testing and vaccinations at companies, schools, senior centers, events, and public centers throughout Los Angeles County. With headquarters in Montebello, California and founded in 2004, SeraCollection Research Services serves as a research institute and consulting organization for Pharmaceutical, Diagnostic Bio-Industry, Principal Investigators, Urgent Care facilities and Corporations.

For more information or to arrange for a mobile vaccination unit, or to schedule an appointment, please call (323) 321-6700 or visit our website at: www.seracollection.com.
