**Kumbakonam, Tamil Nadu Jun 17, 2022 ([Issuewire.com](http://Issuewire.com))** - Our **OrderZ** Platform lets you sell Wherever your customers are - Online, in-Person, and Everywhere in-between. A great place to start your eCommerce store! Launch your online store in just 3 minutes and Start Getting orders. You can

add your store Management details like name, description, and contact detail about your store and also working hours respectively.

Just make use of our dashboard to add shopping products and Manage your orders and Payments Effectively. Additionally, you can have the option of QR builder to order the product and add a convenient payment method for customers to pay the bills instantaneously. Make use of our options like the delivery area to ship the product to the customer's home. Just manage your delivery area and cost with the help of our **OrderZ** platform.

Moreover, just check your status on the current plans and total orders taken according to our features plan. Just upright your customers with the coupon management system like add new coupons for your preferable customers with a price range and active state of coupons to get beneficial purchase

Over and beyond just share your products with the audience via social media to interact with the customers closely to get the feedback to improve the business medium. Just add the Staff member data to take action like login, attendance, etc.,

Online store, No coding, and No developers required, you can try a Demo of our product by using the link :
