TGI SOLAR POWER GROUP

(OTCMarkets: [TSPG](#)) ("TGI"), a diversified technology and environmentally efficient real estate development company currently developing Advent City: 700 villas, 120 garden apartments, and shopping and entertainment centers in the Yucatan, Mexico announced today that it began to develop AR/VR ADVENT EXPO metaverse, with a native NFT Galleries.

The company is pleased to announce the recognition of Samuel A. Epstein, Chief Operating officer as presenter of his four scientific works at the Canadian Geological, Mining, Geophysics, Hydrological, and Engineering Conference in Halifax, Canada. The abstracts will be published in the Journal of Canadian Geoscience in June 2022. In particular, one specific presentation reviewed future potential in heavy rare earth and lithium deposit near El Paso, Texas with its role in supplying strategic minerals. Mr. Epstein continues to plan the water monitoring and purification associated with TGI's Yucatan cenote water aquifer asset. The data collection will be integrated with the existing published scientific works in order to aid the entire environmental preservation of the ecological system in the Yucatan Peninsula, an area experiencing explosive population growth.

About ADVENT EXPO: Expo is going to become a central meeting place and center for important social interactions between people of different backgrounds and age groups. Underlying technology allows for merchants, consumers and large enterprises to be replaced by a virtual EXPO in the metaverse. EXPO will cater to B2C+B2B+B2E= B2X, or simply stated B2All.

Entertainment zones, meeting, and interacting with your friends at a coffee shop in real-time are the future. Conducting business in co-working spaces without leaving one's house in the future. A VR/ AR ADVENT™ EXPO is coming soon and will become a reality, thanks to ADVENT GALAXY.

About TGI Solar: TGI SOLAR POWER GROUP INC. is a diversified holding company. TGI's strategy is to acquire innovative and patented technologies, components, processes, designs, and methods with commercial value that will give competitive market advantage and generate shareholder value.
