

The Closed-Beta of "Rise of Elves" is NOW LIVE

Bantayan, Cebu Jun 8, 2022 ([Issuewire.com](https://www.issuewire.com)) - "Rise of Elves" is the world's most anticipated blockchain game. Since it started the closed beta on May 20, it has received enthusiastic participation from players all over the world! In less than a month since the closed beta was launched, nearly 4,000 players have joined the official Discord channel, and more than 10,000 players have joined the Telegram channel! The number of active accounts in the game has also exceeded 10,000! It can be predicted that after the game is officially launched, there will be a new trend in blockchain games!

Join the closed beta of "Rise of Elves", leave your Metamask wallet address in the Discord "closed-beta-participant" channel, and you will get an Elf and an Elf Egg. You can also get another Elf and Elf Egg by completing the tasks of the airdrop event. This means the players in the closed beta can already enjoy the fun of the Elves' Evolution in the game.

The Elves' Evolution is a major game feature of "Rise of Elves". Players can trade Elves and Eggs in exchange for income on the Marketplace which will be launched in the future. When players evolve Elves with various attributes, the value of Elves will be different, and it will be determined by all of the "Rise of Elves" players, so it is quite necessary to understand the game first.

There are nine elements of Elves in "Rise of Elves", including six common elements of Water, Fire, Earth, Wind, Beast, Plant, and the other three rare elements of Light, Dark, and Spirit which can only be created through Evolution. It increases the entertainment of the game, and also brings great benefits to the marketplace.

"Rise of Elves" held a small Fan Meet last weekend. The official had a face-to-face with players to talk about the game content. In addition to hearing the players' voices and expectations, the official also called for players who are interested in blockchain games to join the closed beta. Not only will it help you get familiar with the gameplay but also to further understand the economy of the game. After the official launch of "Rise of Elves", the players with that knowledge will have an advantage over everyone else!

The development team of "Rise of Elves" believes that creating a high-quality game should not just be a slogan, but truly listen to the voice of each player as the key to its success. In line with this, the official will regularly hold weekly Fan Meets to communicate closely with players to hear their suggestions and feedback and to further explore the essence of the game. Some exciting events will be presented during the Fan Meets with gifts and rewards up for grabs by the lucky participants! We look forward to building "Rise of Elves" up to the standard of our players, and achieving the purpose of "Play to Earn"!

In addition, we welcome players to share their suggestions and feedback at any time in the "Rise of Elves" communities. Stay tuned and don't miss out on any game news or updates!
