

The origin of surnames, a subject that generates a lot of interest, by originsurname.com

New York City, New York Jun 12, 2022 ([IssueWire.com](https://www.issuewire.com)) - More and more people want to know their family history. There are those who opt to take a genetic test to find out what their DNA hides. They complete this research by trying to complete their family tree and searching in originsurname.com

The origin and evolution of surnames has been uneven in different parts of the world. Knowing the way in which they were created, as well as the way in which they were transmitted and the way in which they have been spreading is something that can give an explanation to the current distribution of the existing surnames in the world.

In the origin of surnames are enclosed not only the history of many families, but also the history of peoples and nations, of migrations, of society, of the way of life, of the economy and of the laws of each epoch. That is why researching the origin of the surnames of the world is a challenge.

The website apellidoorigen.com was created with the aim of helping those who are interested in knowing the [origin of surnames](https://originsurname.com) in more depth. For this purpose, they have a combination of databases that are updated as new information on the origin of surnames appears.

The project to make known the origin of surnames has also been developed in German, in the web dieherkunft.com, in French, in the web originedunomdefamille.com and in Spanish in the web apellidoorigen.com. In addition, it is expected to expand to more languages during this year 2022, so that more and more people can access all available data on the history and origin of the more than 70,000 surnames from around the world available to the project, which continues to grow day by day.

Knowing the origins of the people who populate the earth is something that can and should be studied from many disciplines. In the case of families in particular, the fact of investigating the lines given by the different surnames of the family will always be a path to follow that can lead many to find numerous curiosities and interesting surprises.
