Udipi's Upahar is a pure vegetarian restaurant notable for its authentic South Indian delicacies. The owners Mr. Chethan Anand Bolar and Mrs. Jayashri Bolar opened their first outlet in 2009 in Gachibowli, Hyderabad which went on to be the flagship store. The flagship store gained immense popularity among the techies in and around Gachibowli and soon became the breakfast spot or adda for the Financial District. The owners than in conjunction with invested franchisees proceeded to establish several other outlets in Telangana. Although a decade has passed since the establishment of the first outlet, Udipi's Upahar still stands true to its promise of simple, tasty, and healthy food.

Presently, Udipi's Upahar has established its presence across cyberabad and various MNCs in the city of pearls and biryani. From 1 outlet in 2009 to 7 company-owned outlets and 8 franchisee-owned outlets in 2022, Udipi's Upahar has grown in leaps in the last decade. Regardless of how huge the client base has grown, the emphasis has everlastingly been on serving extraordinary food and exemplary service.

Our new office in Hyderabad will act as a significant development centre. We are beyond excited to proceed with our development and are grateful for the overflow of adoration we have received in Hyderabad.

In adherence to the government rules, our corporate office will commence operation in Kondapur from 9th June with new hirings and cultural direction to carry out the organization's motto across all outlets of Udipi's Upahar.
