

Verisys Corporation Expands Operations Globally

Tapping talent in Hyderabad, India, helps Verisys maintain its market leadership in data and technology that assures competency and transparency across some of the largest health systems in the U.S. including retail pharmacies, payers, and hospitals.

Louisville, Kentucky Jun 29, 2022 ([Issuewire.com](https://www.issuewire.com)) - [Verisys Corporation](https://www.verisyscorp.com), a leader in health care data and technology providing turn-key workforce management for some of the largest health systems in the U.S., announced the expansion of operations in India through a wholly-owned subsidiary, Verisys Global Private Limited, located in Hyderabad.

Verisys Global Pvt Ltd. was incorporated on February 23, 2022. The Hyderabad office with 53 team members plays a key role in helping Verisys stay on the cutting edge of health care transparency and patient protection in the U.S.

“When we started working with the talent in Hyderabad, we realized their commitment to and capacity for excellence in accelerating Verisys’ ability to deliver on its promise to the U.S. health care system. I am delighted that we are now one cohesive team with synergies aligned,” says Charlie Falcone, Verisys CEO.

“The formation of Verisys global exhibits a commitment to expand our global presence to help empower the health care sector by bringing curious and creative minds to our team. In addition, Verisys and the India team will continue to imbue in the digital transformation of health care, life sciences, and the background screening space,” says Nidhi Kapoor, Director of the Hyderabad office.

“Verisys is extending its footprint in India, something we are all very excited about. This demonstrates our ongoing global expansion and development. The incredible team in India at the Hyderabad office is ecstatic about the move and will play a critical role in assisting Verisys in remaining on the cutting edge of technology. We will continue to build on our global expansion strategy,” says Preeti Mani, Head of Human Resources for the Hyderabad office.

Verisys operates with a total global workforce of more than 600 working remotely as well as out of four U.S. offices in, Louisville, KY as the corporate headquarters, Leawood, KS, South Jordan, UT, Alexandria, VA, and Hyderabad, India.

ABOUT VERISYS

Verisys transforms provider and workforce data management. 1,500 healthcare, life science, and background screening organizations depend on us to credential providers, improve data quality, publish compliant provider directories, and conduct employment verifications. Our comprehensive solutions deliver accurate and secure information. As a result, we’re the largest outsourced credentials verification organization in the United States. Since we’ve partnered with the most complex institutions in health care for decades, we can help organizations of any size discover their true potential. Visit verisys.com to learn how we turn problems into power.
