We are excited to be part of the  
Newchip accelerator program!

**San Francisco, California Jul 1, 2022 ([Issuewire.com](https://www.issuewire.com))** - Africa's most promising contactless payment solution gets into the [Newchip Global Accelerator program](#) as [Versuspay](#) is selected for the new cohort of the world's #1 Online Global Accelerator after a highly competitive screening and selection process sees Versuspay come out amongst the top 10%.

With 2000+ alumni companies, 250+chapter cities,120+ chapter countries, \$2.25BN+ Funding for Alumni, \$100M+Portfolio Acquisitions \*Since the program launch in 2019, \$15BN+Estimated Portfolio Value and much more, The New Chip Global Accelerator is definitely a powerhouse when it comes to unlocking rapid growth and working with innovative companies like Versuspay to build for the future through its unique program.

Versuspay is a QR-powered fintech solution driving commerce for SMEs in Africa and making social payments easy and smart for mobile money users across the continent.

During this program, the Versuspay team will work directly with mentors and advisors, engage in mastermind sessions and leverage a vast partner network to unlock phases of growth to become even better positioned to raise investment capital to drive its vision of simplifying the payment experience across Africa.

With [Versuspay](#) being the future of contactless payment in Africa, a [NewChip](#) is definitely what is needed at this stage of its journey to unlock the power of contactless payments in Africa.

### **About Versuspay:**

Quick Response Code (QR) - based contactless payment solution for businesses and mobile money users across Africa, Versuspay disrupts the traditional payment systems through its contactless payment solution that allows payment in under 5 seconds while driving financial health and financial inclusion.

### **About Newchip:**

Newchip is the #1 Online Global Accelerator. The Newchip Accelerator is an immersive, equity-free, online accelerator program for Early Stage to Series A startups that are serious about scaling their businesses to the next level.
