

Webinar on “SharePoint 2013 End of Life, Take action before it’s too late!” by Quadtrion

Explore the implications of SharePoint 2013 going EOL and ways to transition from the retired version in a Webinar by Quadtrion

New York City, New York Jun 2, 2022 ([Issuewire.com](https://www.issuewire.com)) - SharePoint 2013 is being retired in April 2023, bringing in huge ramifications for existing users. Post the retirement, SharePoint 2013 users will no longer have access to security patches from Microsoft, affecting the security of the suite. With an initiative to help existing SharePoint 2013 make a transition move. Quadtrion - A Microsoft Gold Partner will be hosting a webinar on “**SharePoint 2013 End of Life, Take action before it’s too late!**”

Implications of using SharePoint 2013 EOL post the retirement

- Support from Microsoft will be discontinued
- No security patches-leaving your site unsecured
- High maintenance costs
- Challenges in feature enhancement
- Barriers to business continuity
- Dependency on third-party service providers-leading for higher costs
- Unstable business processes

Quadtrion, with its vast expertise in Microsoft Technologies, has specially curated the agenda of this webinar to educate SharePoint 2013 users on the implications of using an unsupported version, along with the available upgrade options. This interactive webinar aims to enable users to strategize their plan

of action and implement it well before the deadline.

The webinar is scheduled to be hosted on Wednesday, June 15th, 2022, from 10 to 11 AM EST. It will be hosted by Ashish Gupta, Director of Collaboration Solutions, Quadron.

We look forward to your participation! Click [here](#) to register for the webinar.
