

## Worlds Beyond NFT Reveals Plans to Launch 10,000 Metaverses with AAA quality graphics

Innovative user-generated crypto and blockchain Metaverse, Worlds Beyond NFT, reveals plans to mint 10,000 procedurally generated worlds with unique traits and a long list of utility and benefits for owners and players alike.

**Birmingham, United Kingdom Jun 15, 2022 ([IssueWire.com](https://www.issuewire.com))** - The experienced team at **Worlds Beyond NFT** is helping to open up the crypto space to more people with 10,000 procedurally-generated NFT Worlds each with individual traits, rarities, and a host of utilities.

With a team consisting of over 25 members that have worked in various AAA studios, such as **Ubisoft, EA, Gameloft, Koei, Virtuos, NetEase**, and having worked on titles such as **Demon's Souls, Legends of Runeterra, PUBG, Garena Free Fire, Medal of Honor, Jedi Fallen Order, Battlefield V** and many more.

The Worlds Beyond NFT project is created as a metaverse ecosystem that enables world owners to build any type of world and apply any type of game logic onto their NFT land along with hosting multiplayer P2E games/experiences for everyone in the community to enjoy.

Unlike other projects in the fast-emerging NFT space, Worlds Beyond NFT has the wealth of utility, and the proposed ecosystem at the heart of the value it will bring to prospective land owners.

The Metaverse **land mint is expected in Q3 2022**, allowing owners to host games, with the initial plan including FPS, Battle Royale, and Survival game modes.

**Other benefits of owning land** with AAA graphics in the Metaverse include access to **land customization, unlimited design and build options, creation and sale of NFT assets, airdrops,**

**and staking and for players a chance to earn P2E prizes** from playing games, and tokens through **staking and airdrops** amongst others.

Players will be able to access many P2E opportunities and **they can also mine, collect, and sell valuable metal resources, sell Environmental NFTs, design and sell character customization NFTs**, and a host of other perks.

The development team brings their combined experience of more than 150 years in the game industry to create an ecosystem that will challenge the status quo in the virtual space.

In addition Worlds Beyond NFT is planning to partner with other studios as verified that have worked with the Unity game engine to enable the creation of fun and exciting experiences that include concerts, community hangouts, and a host of other games and experiences, the opportunities are literally limitless
