

26th International Conference on Advanced Nanoscience and Nanotechnology

Be a part of the prestigious scientific event - Nanoscience 2022

SPEAKER TESTIMONIAL

"25th International Conference on Advanced Nanoscience and Nanotechnology was scheduled on May 6-7, 2022. I contributed to this important conference with Keynote Presentation, and moderated Keynote Sessions on May 6-7, 2022. At the conference sessions, 6 Keynote Presentations were delivered by the distinguished scholars and colleagues, 16 Oral Presentations were delivered by experienced academicians, engineers, and participants, from different cultures and countries, and 6 poster presentations were delivered by young participants. Following these presentations, the conference ended successfully. Also, the conference has been very beneficial with the new and fresh knowledge, and I enjoyed very much. I am sure this important conference has been beneficial for the scholars and participants, especially for the young scholars, researchers, and participants. Also, thanks to the conference moderators. Congratulations to the Conference Company and Conference Committee on their great efforts and great consideration".

Key Experience

- Excellent Conference
- Satisfactory level Experience
- Extremely Organized event
- Very supportive organizers
- Interested to the future series

Nanoscience 2022

Dubai, United Arab Emirates Jul 1, 2022 ([IssueWire.com](https://www.issuewire.com)) - **Nanoscience 2022 UPDATE!! Meet you all in DUBAI, UAE on DECEMBER 05-06, 2022**

We ecstatically welcome you all to the “**26th International Conference on Advanced Nanoscience and Nanotechnology**”. This conference is meticulously scheduled during **December 05-06, 2022** in **Dubai, UAE**, and also provides a Virtual platform to participate in the event.

Conference Website Link: <https://nanoscience.alliedacademies.com/>

With an exciting theme, “**Explore the future spectrum opportunities in Nanoscience and nanotechnology**”, this year we can provide you with a world-class scientific program spanning all areas of Nanotechnology and their intersections with other fields of critical importance to our future including Nanomedicine, Health, and other sectors.

Nanoscience 2022 is a great platform to bring together leading academic researchers, professionals, delegates, entrepreneurs, and industrialists from around the world to exchange and share all the advancements, latest developments, and advanced research in all aspects of nanotechnology, and find global partners for future collaboration.

Participating in **Nanoscience 2022** provides a way to meet and build relationships with an elite team of various Nanoscience professionals to increase your knowledge and perception of [nanotechnology](#).

We are very passionate about this “**26th International Conference on Advanced Nanoscience and Nanotechnology**” and have hope for you to make it a successful event.

We look forward to meeting you at the Conference!
