Visualizing your organizational function as an end-to-end business flow, business processes form the foundation for Process Optimization, Automation and Analytics.

Microexcel Thought Leadership Series

Process Optimization, Automation & Analytics

Jersey City, New Jersey Jul 12, 2022 ([Issuewire.com](https://www.issuewire.com)) - With Progressive businesses jumping onto the digital transformation bandwagon, what rides the migration wave is SAP S/4HANA. And, what drives the migration to success, entails a train of processes involving people, technology, strategy, and the digital simulation of your enterprise – “as-is”.

Diving into the key entities and processes of your business, and how ‘RISE with SAP’ accelerates the SAP S/4HANA migration, Microexcel’s Process Optimization, Automation, and Analytics Lead – Anthony Murphy brings out enriching insights in his Thought Leadership blog: “Focus your Digital Transformation Vision with SAP S/4HANA Cloud”

With a specific highlight on Process Optimization, Automation, and Analytics- which is one of the key pillars of Microexcel’s S/4HANA migration, Murphy shares his expertise on the extensive capabilities of RISE with SAP with intelligent automation, real-time business, and process insights, which enable a well-networked digital enterprise immune to the global market changes.

The Thought Leadership article is not only a window to the immense potential for your business with S/4HANA migration but also what makes it successful and thriving in today’s competitive global market.
