Queensland, Australia Jul 18, 2022 ([Issuewire.com](https://www.issuewire.com)) - Science and imagination are just sides of the coin and Author Rodney Bartlett are offering the essence of those scientific possibilities through his latest publication 'SUPER SCIENCE: Insightful Intuitions of the Future's Super-science, as Different from Today's Science as That is From Superstition and Myth'. The book has been published on June 12 this year. This book is masterfully crafted with the accumulation of various research papers made on the scientific facts and beyond that. It is a perfect treat for readers who have ample curiosity and a knack for unknown things.

Starting from Relativity, Quantum Mechanics, and Quantum gravity to cosmology and cosmic traveling; the book is oriented toward the future of science and how it can change reality. Being a researcher at the ResearchGate, the author has tried to express his scientific point of view while relating to other aspects of philosophy and superstition.

There are a total of 9 chapters in the book and each of them is crafted like a research paper to make sure the readers can feel the spark of the unknown future as well. Find out more amazing facts by purchasing the book
