

Best Bird Feeder Camera in 2022

Los Angeles, California Jul 27, 2022 ([Issuewire.com](https://www.issuewire.com)) - If you're interested in birds but bored of traveling all the way to observe them in nature, if you're always missing excellent opportunities to shoot images, or if you're struggling to recognize bird species, [Netvue Birdfy Camera](#) is here to assist you. It's the world's first smart bird feeder camera with superior AI bird recognition, currently available on Amazon and [Netvue.com](https://www.netvue.com). Netvue Birdfy could wow bird lovers and provide them with an entirely new experience thanks to its creative designs.

Innovative Design

As the first auto AI recognition bird feeder camera, more than 6000 species of birds could be easily identified thanks to Netvue Birdfy designers, allowing you to proudly share the names of your favorite birds with family and friends. The so-called Artificial Intelligence had machine learning capabilities; the more #CaughtBirdfy content uploaded, the more precise the results. The linked phones will receive notifications whenever the Netvue Birdfy camera detects birds, it will simultaneously capture, record, and save images and videos that will be uploaded to the Netvue cloud for your sharing in the future, so you can never miss a moment!

With 135 degrees of wide-angle lens and up to 12 months of battery life, the Netvue Birdfy camera can give you all-around and long-lasting services. Not to mention its solar charging and great waterproof quality.

Birdwatching

As a matter of fact, most wild birds will die before they reach adulthood. One of the many reasons has something to do with nasty food in the wild as potential diseases may present. Even simple infectious diseases can kill a large number of birds each year. Now thanks to the Netvue Birdfy feeder, your beloved birds can be protected against illness as they have found heaven in your yard.

For you, life can be fast-paced, but when you sit down and glance up at the sky, birdwatching can help you calm down and soothe your overworked brain. Now, instead of wasting time and following the path of birds, you can observe birds right at home by utilizing the Netvue Birdfy feeder and enjoy the serene and quiet time that is just for you and your family.

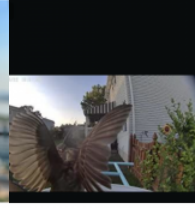

The Bird Lovers' Feedback

One of the reviews of Birdfy on Netvue stated that "I've actually really enjoyed all of the different combinations of birds that are 'detected' at my feeder. I think with time and updates to the camera's AI bird identification software it'll improve." Just as Netvue Birdfy feeder has promised customers, its AI system will self-learn based on the database, give it time and it will surprise you.

On the Internet, the voices about Netvue Birdfy on Youtube are spectacular; numerous YouTubers posted Birdfy and had thousands of views and comments; people are eager to explore how one product can introduce them to a new lifestyle and bring them together.

Netvue
(This is the link that was sent to me to write a review for the Netvue birdfeeder, however I realize that it is for the arm attachment.)
I have been working with Rachel, from customer service, and she has been an excellent representative! She has by been helping me figure out how to better use my Netvue birdfeeder! The pictures are amazing! The camera has great range and although the AI has been a bit challenging, I am enjoying watching the birds that appear on my birdfeeder every day!
