

Beyoung, India's Most-loved Fashion Brand is Launching New Beyoung App for Fashion Lovers

India based fashion start-up Beyoung is launching an online shopping app to make it easier for customers to buy the latest clothing hassle-free. Available on Google Play Store!

Udaipur, Rajasthan Jul 14, 2022 ([Issuewire.com](https://www.issuewire.com)) - Online purchasing has become increasingly popular in the modern digitalized world. E-commerce is enjoying unprecedented growth, from online grocery shopping to ticket booking. Beyoung, an Indian e-commerce fashion brand has announced the launch of its official and new Beyoung App on its 4th Birthday – June 4, 2022. The major

purpose of the Beyoung App launch is to make online shopping more convenient and enjoyable. According to the brand, which provides a 'Premium and Affordable' fashion to all trendsetters and new style seekers, the new online fashion shopping app is intended to streamline and make a better buying experience for customers.

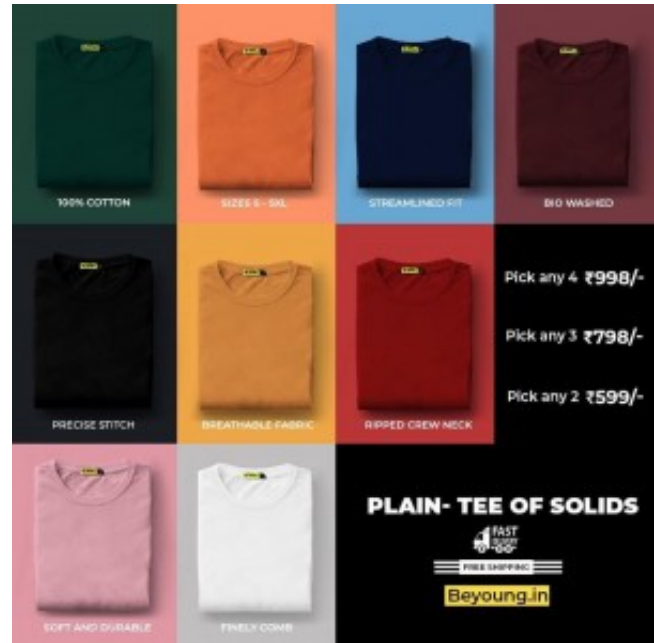

The Beyoung App Allows You to Shop Effortlessly!

Boost your buying experience with Beyoung online shopping app and smoothly browse around to take advantage of enormous discounts on your favourite clothing. With this app, you can always be updated about the latest trends, free shipping offers, endless coupons & discounts, and more, whether it's the Festive Sale or Best Deals. To say the very least, this tiny fashion app is a small packet of a powerhouse. [Beyoung App](#) will not only make your life easier but also more economical, with over 1 Lakh+ products and designs to choose from and 100+ main categories to refine your searches.

CEO's Corner: "We are thankful to all of our customers for making Beyoung so popular across India. Customer satisfaction has always been our first priority since we started this fashion brand. Especially for them, we have decided to launch our official online shopping app. The ease and comfort of buying from a mobile app have encouraged us to launch our Beyoung app where we can directly reach customers and make their shopping experience more enjoyable and effortless. Last but not least, we will be releasing new styles and trends every week, so be ready and start preparing your Wishlist."

As a result, with unbeatable discounts and designs, Beyoung is ready to rock in style. Even the customer will find timely offers and new arrivals on the Beyoung app.

About: Beyoung is an online fashion brand that specialises in various fashion categories like printed t-shirts, plain t-shirts, shirts for both men and women, Kurtis, joggers, crop tops, jeggings, boxers, polo t-shirts, full sleeve tees, mobile covers, and pop sockets. Beyoung's team is made up of young talents that work and think together to provide customers with a simple and worthwhile purchasing experience. The major purpose is to provide affordable and premium products. Furthermore, we offer a customisation platform via which a customer can personalise a t-shirt or cell cover to meet his or her specific requirements. One can simply find their favorite clothing on their website and now on the official Beyoung app too.
