

Bitcoin 2023 Returns To Miami For The Third Year In A Row

Organizers of Bitcoin 2022 announce the flagship conference will return to Miami for Bitcoin 2023. Featuring Michael Saylor, Zoltan Pozsar, Michelle Phan and more!

Miami Beach, Florida Jul 9, 2022 ([Issuewire.com](https://www.issuewire.com)) - Bitcoin Magazine has announced Bitcoin 2023 will be held in Miami Beach, FL on May 18-20, 2023. Bitcoin 2023 is the fourth iteration of the largest Bitcoin Conference in the world. The three-day event will feature an industry day and two general admission conference days. Bitcoin 2022, which took place earlier this year, hosted over 26,000+ attendees, 400+ companies, and 400+ speakers.

Bitcoin 2023 has also announced the following speakers slated for launch day: Michael Saylor, Zoltan Pozsar, Michelle Phan, Anthony "Pomp" Pompliano, Lyn Alden, Alex Gladstein, Stacy Herbert, Obi Nwosu, Fode Diop, and Vijay Boyapati.

"Bitcoin isn't going anywhere," said David Bailey, CEO of conference organizer Bitcoin Magazine, "We've been through multiple market cycles. It's clear that while the market may be down right now, the movement is here to stay, and the community continues to grow. We're still laser-focused on building the biggest platform possible for Bitcoin, the greatest tool for financial freedom and individual liberty ever invented. This conference will highlight not only the growth of the network but also the industry that has sprung up around Bitcoin. If you zoom out just a tiny bit, it's hard not to be excited about where Bitcoin is headed!"

"As the Capital of Capital, I'm excited to see the Bitcoin Conference remain in its rightful home," said Miami Mayor Francis Suarez, "This conference is a large part of what makes Miami an international Bitcoin and crypto hub and I'm looking forward to attending next year."

The team behind Bitcoin 2023 hit the ground running with their new theme and website, embracing the market conditions rather than running from them. With the headline, "Celebrate Bitcoin Winter in Miami," the mission has been set to continue moving forward despite the chilly conditions. You can find the new website here.

Also announced is the return of Sound Money Fest (SMF), which will take place on the evening of the second general admission conference day (May 20). Admission to the Festival is included with the General Admission, Industry, and Whale pass to Bitcoin 2023.

Bitcoin 2023 Industry Day on May 18 will be the convergence of the Bitcoin ecosystem with legacy finance, fintech, and energy infrastructure, including content tracks and targeted networking tracks for institutional finance, bitcoin mining, and Bitcoin technical development. Industry Day will host more than 6,000 global industry leaders, 80 speakers, 4,000 companies, and the return of Pitch Day; the largest platform for bitcoin-related startups seeking fundraising. The Industry Pass has also gone public with a starting price of \$1,199.

General admission tickets are currently \$349, with Whale VIP Passes at \$5,499. Prices will increase on 07/08/22 at 11:59 PM PT. For further information on the event please visit our website at b.tc/conference and follow @thebitcoinconf on Twitter.
