

canada-visa-online has made A Breakthrough in Offering Visa Services to Dutch & Portuguese Citizens

Vancouver, British Columbia Jul 29, 2022 ([Issuewire.com](https://www.issuewire.com)) - Canada is a country that many desire to visit for many purposes. In addition, now with the extensive offerings from privately-owned agency **Canada-visa-online**, visiting the country has become easier for Dutch and Portuguese citizens. The **Canada visa for Dutch citizens** surrounds obtaining a Canada eTA that can be used for short tourism, business, or even transit purposes. The eTA to Canada is a mandatory document required for Dutch citizens who are planning to visit the country. Applicants from Canada must remember that the validity of their passport must be at least three months past the expected departure date before applying for a Canada visa. Implemented back in 2012 and finally coming in place in 2016, the eTA Canada visa program was incorporated to improve border security.

The process for the application for **Canadian visa for Portuguese citizens** and Dutch citizens is the same. Here, willing applicants will have to fill up an application form that asks for details like contact information, email address, employment details, and passport details. After an applicant has completed filling up the form, they will have to pay the fees of the Canada eTA via a credit card, debit card, or even a PayPal account. Once they pay the fees for the eTA, the process of approval commences. If the citizens from the Netherlands face any confusion regarding the eligibility criteria for applying for a Canadian eTA, they are urged to visit <https://www.canada-visa-online.org/canada-visa-eligibility/dutch-citizens/> for more information.

Once the approval process is completed by the Immigration Department of Canada, the eTA gets directly delivered via email to the applicant's provided email address. As it is a completely online process, applicants are not required to visit concerned Canadian embassies for any other formalities. The Canada eTA is a document that allows multiple entries to Canada for Dutch and Portuguese citizens. Although it bears a validity of 5 years, the document does not let citizens from Portugal and Netherlands stay in Canada for more than 90 days at once. Every applicant must be over 18 years of age to become eligible for applying for Canada eTA. For more information, visit <https://www.canada-visa-online.org/>
