

Customodish introduces photo projection necklaces to personalized jewelry lovers

Turn your favorite picture into a necklace and shine a light to see.

New York City, New York Jul 23, 2022 ([Issuewire.com](https://www.issuewire.com)) - [Customodish](#), a brand of personalized jewelry offering monogrammed necklaces and photo engraved necklaces, has expanded its product line with photo projection necklaces.

A projection necklace, also known as a projector necklace, is a necklace with a picture inside. When

illuminated with a flashlight, the internal picture can be projected onto the wall, delivering a hidden message of love.

Two more ways are available to unlock the magic of a projection necklace. The image can be enlarged and shown on the screen of a cell phone using its camera lens. Holding the pendant under one eye will also allow you to see the image.

The projection necklace is engraved with nano and microlasers. First, the picture of your choice is made into a 3mm color microphotograph. After that, the tiny piece of artwork is inlaid on the flat side of a molded lens. The specially designed lens is then glued to the pendant's central gem. With Customodish's engraving technology and high-resolution machine, good results are guaranteed with clear and bright pictures.

The projection necklace is one of the most sensual pieces of jewelry you can find. You can put your loved one's picture inside the pendant and wear it close to your heart. Furthermore, it preserves precious moments for a lifetime.

"I just lost my dad a month ago. My mom broke down in tears when she saw my dad's picture projected onto the wall," said Melissa from Texas, "It was like he was never far away."

[Customodish](#) offers nearly 40 different styles of projection necklaces and bracelets with free worldwide shipping. We have projection necklaces for everyone, from simple styles for minimalists to heart-shaped styles for classic lovers. It's easy to customize. Upload a clear picture and we'll handle the rest.

About Customodish:

Customodish was founded by a loving couple, Rachel and Sebo, in 2016. Our mission is to create original, one-of-a-kind jewelry that keeps precious memories alive.
