

CyberSecOp Security Consulting Services Earns 4.8 Star Reviews Worldwide

Our advisory cyber security consulting services provides clear cybersecurity strategy services, advising businesses on data privacy, cybersecurity, and compliance. Cyber Security Consultants provide next-generation and help your organization to grow.

Brighton, New York Jul 15, 2022 ([Issuewire.com](https://www.issuewire.com)) - Gartner Peer Insights recognized CyberSecOp LLC with a “100% Would Recommend” rating based on peer reviews coming from their clients. Common comments included “CyberSecOp is a customer-centric service provider. They value the

business relationship they establish with you.” “CyberSecOp offers a rare combination of white-glove service normally only seen in individual consultants or very small, boutique consulting firms (which charge double market price) along with the professionalism and experience you’d expect from a multi-national, large cyber security agency.”

“CyberSecOp’s portfolio of services including vCISO, Incident Response, GRC/Vendor Management, and SOC are game changers in a complicated industry,” said Vincent LaRocca, President & CEO of CyberSecOp. “The ability to guide our clients to Plan, Prevent, Protect and Respond to a cyber-attack (if needed) is paramount to our value and success.”

CyberSecOp serves companies <\$50M - \$10B USD across a range of industries including but not limited to Services, Finance, Healthcare Manufacturing, and Education within North America and Asia/Pacific.
