Sandy Springs, Georgia Jul 19, 2022 ([IssueWire.com](https://www.issuewire.com)) - Drake celebrated on social media after landing No.5 on [Veva play charts](#). His single featuring 21 Savage title "Jimmy Cooks" has led to positive reviews for the month of July. After posting his post to Instagram his fans became inquisitive as to why the post was removed after receiving a total of 146,934 likes and 405 comments. *Drake Quoted* ""Jimmy Cooks" Ft 21 Savage No.5 on Veva Play. My Management may remove this so get it while it's hot" Drake stated in the caption his management may have an issue with him posting as seen above. Even though a No.5 position is not No.1 drake management seems to have removed the post because of drakes' competitors who have reached a better position on the charts. Future peaked No.4 on the Veva play chart and Lizzo landed No. 3. In conclusion, you can find a screenshot of the post below.
