

Find The Best Messenger Based On Blockchain Technology With Mintus

London, United Kingdom Jul 27, 2022 ([IssueWire.com](https://www.issuewire.com)) - The growing demand for crypto trading and its popularity among the mass people is seeking an all-in-one platform, and Mintus is offering exactly what the global users are looking for. It is a revolutionary chat application that is improving the field of P2P crypto trading. Unlike instant messengers, this platform thrives to provide solutions to an everyday problems based on blockchain technology. It is a decentralized secure messenger that keeps all the data safe between two peers, while the company and other users are unaware of it. Advanced encryption technology is offering users new opportunities for communication, photo and other media sharing as well as crypto trading with a single click.

Mintus is an Ethereum blockchain-based platform filled with a potential community of crypto traders as well as registered merchants in the field. The platform offers various features of tokens and an E-wallet to make sure every transaction takes place swiftly and efficiently without making it difficult for the users. Easy and user-friendly, the platform is also one of the most reliable, secure, and fast-growing blockchain platforms that is offering more convenience to users. The chat application comes with a Built-in payment system for QR payments and contactless NFC. There is 100% privacy in both personal group chats and each of the users is able to stream images and video content. The users can also enjoy voice conferences with up to 10 people together along with HD quality video calls. There are also paid channels, bloggers, and publishers in the community who can educate and aware the users more about cryptocurrency and its safe trading.

Mintus is currently looking forward to launching the alpha version of its application which is compatible with both, iOS and android. The application also works for all countries as a result, the peers of every country can take part in this. Exclusive options like 'Cryptolike' can empower the users by providing an

opportunity to grow revenue and the subscriber base as well. Looking forward to a successful roadmap, token sales on the platform will be starting soon. Find more details at <https://mintus.chat>.
