After the success of all the work he's done along with the Shiv & Sai Mantras which are played in various mandirs and all over the country, he has been given a lot of love and appreciation on a pan India and global basis.

The new venture of the “Maula Mere Maula” song in association with TIME AUDIO has been a beautiful journey, TIME has taken the rights of the song and also has signed Aushim Khetrapal under the audio contract and will be releasing 50 songs in collaboration with him in the near future.

About the song

The song has been picturised for the 1st time in *Rishikesh at Laxman Jhula*, it was a difficult task as permissions were not given for 12 years to shoot at the location.

Amidst heavy protocol, permission was given and the shots taken at “Laxman Jhula” are absolutely mind-blowing also the picturising which has been devised with the TIME team speaks of high quality and the song is all about a relationship between a father and daughter, where actor-singer Aushim Khetrapal is in a situation where his daughter commits suicide due to reasons which are taboo in the society. In today's society, we have to be sensitive and spread awareness about Equality for all Live's.

“*Maula Mere Maula*” is a sad love song depicting the relationship between a father and a daughter. The song mainly tries to spread awareness of how “all lives matter”. The transgender / LGBTQ community needs to be supported by spreading awareness of the community and its equal justice in society, so we do not lose more lives. The transgender community has the fundamental right to equal citizenship. Most of whom are suppressed under social stigmatization. We need to not discriminate and live in a space where all lives equally matter.
