

Mecha Infinity Announces Collaboration With Polygon Studios

Singapore, Singapore Jul 5, 2022 ([IssueWire.com](https://www.issuewire.com)) - Another milestone! For **Polygon Studios** for their campaign support for blockchain technology projects. Mecha Infinity is proudly to announce their collaboration with Polygon Studios, one of the top blockchains that acknowledge Web 3 enthusiasts to

build more NFTs, crypto gaming, and metaverse that are built on Polygon's super technology.

[Mecha Infinity](#) features a burning mechanism whereby the utilities that were used by the evolution of Mecha will be transferred to the blackhole protocol program. It serves as the burning mechanism to regulate the value of the existing tokens that are already circulating in the market to avoid miscalculation and price depreciation.

Mecha Infinity's staking features the Play to Charity concept that provides welfare for indigenous people in different communities. They include this feature to allocate the stake assets that will be generated for the funds for charity projects. In this case, they want to abide by our philanthropic principles alongside Polygon.

Polygon was a great choice because of layer two solutions for the Ethereum network. This is a great achievement for Mecha Infinity to have an Ethereum presence, and with low fees, Polygon is the best choice. Polygon has many qualities and complex features that make it unique and dominant. With great compatibility with the Ethereum blockchain, Polygon serves the best features fluid network interoperability, great scalability, low fees, and easy access to user experience.

About Polygon

[Polygon](#) is the leading platform for Ethereum scaling and infrastructure development. Its growing suite of products offers developers easy access to all major scaling and infrastructure solutions: L2 solutions (ZK Rollups and Optimistic Rollups), sidechains, hybrid solutions, stand-alone and enterprise chains, data availability solutions, and more. Polygon's scaling solutions have seen widespread adoption with 19,000+ decentralized applications hosted, 1.6B+ total transactions processed, ~142M+ unique user addresses, and \$5B+ in assets secured.

If you're an Ethereum Developer, you're already a Polygon developer! Leverage Polygon's fast and secure txns for your dApp, get started [here](#).
