One of the most impressive tracks composed by and written by Michael is '[My Name is Job](#)'. He has collaborated with another glorious vocalist Zacharias William Celinder. The track is backed by an immersive piece of music. It is so delicate that it entices the mind of the listeners easily. The more you listen to it the more you lose yourself in its melodic progression. Moreover, the song has a subjective significance which is led by its lyrics. So, don't miss out on the song. Another song '[Calling Your name](#)' is even better. The voice of Marlena Johnson wins the hearts of the listeners.

One more track that is worthy enough to mention is '[That kiss](#)'. The song is quite different than the other two.
