

MPWH Releases All-New iOS Dating App for Herpes Singles

The new iOS app joins the MPWH platforms, including online community for men and women with herpes.

MPWH

Los Angeles, California Jul 27, 2022 ([Issuewire.com](https://www.issuewire.com)) - The team at MPWH announced the official release of their highly-anticipated app for iOS. This exciting new app is here to make it easier than ever for herpes positive singles to meet and mingle from the convenience of their devices.

MPWH became one of the very first online dating communities for herpes positive men and women with their launch in 1999. Since then, the platform has continued to grow to include a wealth of features and tools reaching people in New York, Los Angeles, London, San Francisco, Chicago, Boston, Houston, Philadelphia, Phoenix, San Antonio, San Diego, Dallas, San Jose, Washington, Detroit, Jacksonville, Toronto, Montreal, Vancouver, Ottawa, Quebec City, Hamilton, Sydney, Melbourne, and many other cities around the world.

The Silicon Valley based company recently launched their platform's app for iOS, and now, Apple users can also take advantage of this wonderful new app.

People with genital and/or oral herpes know that dating with a STD can be difficult, and it's for this reason MPWH launched their platform. Their team has worked diligently to always keep the privacy of their community as their highest priority. For instance, if a person is discovered to not actually have herpes, their account is removed from the MPWH platform. Those using MPWH enjoy being able to meet other singles in their area who also have been diagnosed with a form of herpes. Plus, they are able to connect just to chat about living with herpes or day to day life. It's a simple and meaningful platform for those who use it, many of whom have relied on MPWH for years.

Now, MPWH continues to be at the forefront of herpes dating with their all-new iOS app. "Whether you want to find a romantic relationship, a simple lasting friendship, or someone who can truly understand you and appreciate all the hurdles you've had to overcome, MPWH can help you find your perfect matches," said a spokesperson at MPWH.

One recent happy customer said, "So far the best herpes dating app, I made a lot of friends. So many amazing people are in there. Thanks for creating the app."

While living with herpes can be challenging, the team at MPWH is always looking for ways to make dating a positive and fulfilling experience for anyone, virtually anywhere, who has been diagnosed with a form of herpes. More information can be found at <https://www.mpwh.com>. The new iOS app is [now available in the Apple Store](#).
