

Primed Talent partnered with CG6 Technology for its USA operations

Cornersville, Tennessee Jul 6, 2022 ([IssueWire.com](https://www.issuewire.com)) - Growing its global footprint, Primed Talent is excited to enter into a new partnership with CG6 Technology Consulting, LLC for its USA operations. Primed Talent, a pioneer in recruitment, training, and content services has been providing its services in UK, EME, and South East Asia for more than a decade now, and aims to extend its operational expertise to the USA market through this partnership.

CG6 is a leading technology consulting firm in the USA, and its familiarity with the USA market will be crucial for us as we set foot on the USA shores. We are hoping that this partnership will serve to accelerate the growth of both companies by taking advantage of the strengths of the respective companies and also creating value for both companies.

"We are thrilled to have CG6 as our business partner for our USA operations. We believe this partnership will give an impetus to our dream of becoming a global force adding value to our businesses and to our clients", **said Navin CEO of Primed Talent group.**

"It is exciting to be partnering with Primed Talent to expand our depth and service offerings to customers. Navin and I have worked together in the past with great success and know this endeavor will benefit our companies and our customers.", **said Tad, President of CG6.**

About Primed Talent

Incorporated in 2016, Primed Talent aims to address the growing challenges of the talent supply chain-to create a strong pipeline of talent to ensure our workforce has the right skills for the current and future industrial cycles. The company has also seamlessly expanded into the world of digital marketing where it focuses on brand building and lead generation. With its offices set up in UK and India, Primed talent group is also looking to expand its operation in Europe and USA.

About CG6 Technology Consulting

CG6, a leading technology consulting company since 2017, offers advisory services for business leaders and technology teams. CG6 offers advisory services to industries including military, government, manufacturing, and telecommunication to name a few. President and consultant of CG6 Tad Hamilton have 30+ years of experience in designing, planning, operating, and leading communication and technology operations. Centrally located in Mississippi, CG6 consulting provides services throughout the Southeast.

Primed talent and CG6 together are determined to provide world-class services to the customers and this partnership will only strengthen this commitment we have towards our customers.
