Recent Renewals from CleverGet for Mac Adding More Module and Giving Better Workflow

Two main updates were post by CleverGet recently for Mac users- version 4.0.0 and 4.0.1, in which Netflix Downloader module and other prompts are added. Plus, bugs causing failure of downloading are fixed.

Shenzhen, Guangdong Jul 21, 2022 (Issuewire.com) - CleverGet, the world's leading online source downloading solution provider trusted by millions of worldwide customers, thinks highly of the users' experience and posts new updates for the CleverGet Mac version with the Netflix Downloader module added. Besides, multiple settings for the user interface and added prompts in workflow give great convenience to user action. The new versions also come out with some other fixes and improvements as well. Read on for detailed information.

New Features in CleverGet Mac Version 4.0.0

A range of new features are added CleverGet Mac 4.0.0., which gives more choices for online video downloading and better workflow:

- Added Netflix Downloader module. Most on-demand videos on a streaming service like Netflix and many others, come and go due to the licensing agreements between the streaming service and the studios that produce them. Now CleverGet Netflix Downloader enables you to download online videos, movies, and TV shows on it freely to get rid of the trouble of missing them.
- Optimized program startup prompt window with detailed version comparison and custom option, with which customers are clear about differences between versions.
- Optimized program Activation Center window to display registration info in either Thunmbnial or List
- Added clearing cache option on parsing failure prompt dialog.

New Updates in CleverGet Mac Version 4.0.1

Soon after the launch of CleverGet Mac Version 4.0.0, users report that there are still bugs retained. Later, the new version was launched within a few days, and this urgent update helps perfect CleverGet's performance.

- Fixed Netflix video downloading failure when SUP subtitles are selected for downloading.
- Fixed known bugs.
