

Richard J. Miron, DDS, BMSC, MSc, PhD, Leading Expert in Regenerative Medicine and Facial Esthetics

Get to know Dr. Richard J. Miron, who serves patients in Florida.

New York City, New York Jul 7, 2022 ([IssueWire.com](https://www.issuewire.com)) - An exceptional clinician and molecular/cell biologist, Dr. Miron previously served as an Adjunct Faculty Member in the Department of Periodontics at Nova Southeastern University in Fort Lauderdale, Florida, and recently relocated to Jupiter, Florida to serve the local community.

Originally from Canada, Dr. Miron earned his Bachelor of Science degree in Medical Science and Master of Science degree in Cell Biology from the University of Western Ontario in 2006 and 2009, respectively. In order to further his education, he received his Doctor of Philosophy degree in Periodontics and Cell Biology at the University of Bern in Switzerland in 2012 and a Doctor of Dental Surgery degree from The University of Laval in Quebec, Canada. In total, he has completed 7 University degrees including 3 doctorates (18 years total).

An enthusiastic researcher, he has currently published over 300 peer-reviewed articles and lectures internationally on many topics relating to growth factors, bone biomaterials, and guided bone regeneration. He has also written 7 textbooks widely distributed in regenerative dentistry, including several best-sellers including his 2019 titled: "Next Generation Biomaterials for Bone and Periodontal Regeneration", 2021 titled "Understanding Platelet Rich Fibrin" and 2022 titled "CARE Esthetics: A Natural Way to Facial Rejuvenation". At the time of this writing, Dr. Miron is considered the most cited and impactful clinical researchers in the field of PRP/PRF therapy.

For the past 6 years, Dr. Miron has been recognized by Dentistry Today as being one of the top 100 continuing education providers in the country and the youngest to ever make the list. He has recently been awarded many international prizes in dentistry and is widely considered one of the top contributors to implant dentistry having won the ITI Andre Schroeder Prize, the IADR Young Investigator of the Year in the field of Implant Dentistry, as well as the IADR Socransky Research Award in the field of Periodontics (2020). In 2022, he was named the leading researcher in the world under the age of 40 by the International Association of Dental Research having won its top prize in Washington, DC.

Dr. Miron is perhaps most well known in the area as the founder of the Center for Advanced Rejuvenation and Esthetics (CARE Esthetics), where they focus on natural ways to generate tissues, treat sports injuries, enhance wellness and treat a multitude of immune-related disorders such as Parkinson's, Multiple Sclerosis and various other illnesses via exosome therapies. His ongoing research continues to pave the way toward novel therapies for the future and has a primary focus on preventing diseases and treating them in the safest, most natural ways possible when compared to previously utilized pharmaceutical agents.
