Seattle, Washington Jul 20, 2022 ([Issuewire.com](https://www.issuewire.com)) - As one of the leading names in the car upholstery industry, Rich's Custom Upholstery Inc. has introduced a selection of top-quality race, street, track, and off-road seats from Corbeau at competitive prices. With over 100 years of combined experience, the company specializes in custom auto upholstery, unique auto interiors, and performance seating while relying on top brands in the automotive seating and interior industry.

Epitomizing quality and excellence in aftermarket seating, Corbeau is the most preferred choice for motorsport enthusiasts worldwide. Catering to a wide range of tastes and preferences, the company has introduced a variety of products, including [Corbeau Carbon Fiber Seats](#), Sport Reclining seats, Seat Brackets, and more. Even after almost 50 years in the industry, Corbeau still remains one of the leading seat choices for motorsport enthusiasts worldwide for reasons including high quality, unmatched comfort, and innovative design. Whether on the street, track, or off-road, Corbeau has set the bar for

what defines excellence in aftermarket seating.

What makes Corbeau Seats ideal for most automobiles is the wide range of products that the brand offers without compromising on comfort. Case in point —the Corbeau classic seats. Designed to fit the driver with definitive support and the vehicle with classic style, these seats target the biggest problem associated with vintage-style vehicles— limited space. The bucket seat is small enough to fit most vehicles but not so small that it won't fit the driver, and as a rule of thumb, it will fit up to a 36-inch waist.

With top brands such as Corbeau Seats and Superior Seats Inc, the company strives to change the course of the auto upholstery industry. During the launch, the founder of the company said, “We have earned a sterling reputation for our attention to detail. We back all our work with a 1-year labor guarantee...We do fully custom work as well as kits. We use only premium materials for all our projects.”
