

Sachin Kumar Amruthlal Jain, MD, FACC, RPVI, an Endovascular and Interventional Cardiologist in Private Practice

Get to know Interventional Cardiologist Dr. Sachin Kumar Amruthlal Jain, who serves patients throughout the State of New York.

New York City, New York Jul 27, 2022 ([Issuewire.com](https://www.issuewire.com)) - An exceptional endovascular and interventional cardiologist, Dr. Jain and his colleagues provide a variety of medical services to their patients from offices located in Yonkers, Bronx, and Manhattan, New York. He is also an attending physician in the Division of Cardiology at Montefiore-Einstein Center for Heart & Vascular Care, and serves as a Clinical Assistant Professor of Medicine at the Albert Einstein College of Medicine.

Running his private practice, he strives to deliver quality care and ensure patient satisfaction. He encourages open communication with his patients which allows him to guide them through their treatment as active participants in their own well-being. His areas of clinical interest include chest pain, peripheral arterial disease, varicose vein, hypertension, cardiac catheterization, nuclear stress testing, echocardiography, leg ultrasound, shortness of breath, high cholesterol, syncope, and general cardiac health.

Academically, Dr. Jain earned his medical degree from the Stanley Medical College in India. Upon relocating to the United States, he completed his residency in internal medicine and his fellowship in cardiovascular disease at Providence Hospital. He has authored several research articles in his field of specialization and has made multiple presentations at professional society meetings.

Constantly up-to-date on the most progressive techniques available, the doctor is board-certified in interventional cardiology, cardiovascular disease, and internal medicine by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Cardiology is a branch of medicine that deals with the disorders of the heart, as well as some parts of the circulatory system. The field includes medical diagnosis and treatment of congenital heart defects, coronary artery disease, heart failure, valvular heart disease, and electrophysiology. Cardiologists are doctors who diagnose, assess, and treat patients with diseases and defects of the heart and blood vessels (the cardiovascular system).
