Garland, Texas Jul 12, 2022 (Issuewire.com) - Saint Catherine Hospice, serving the Dallas Arlington Forth Worth Areas!

One thing that's unique about our agency is the connections we have with our patients. And we measure that by the glowing feedback we receive from patients and family members who can feel how much we care.

While we serve patients of all ages and all economic circumstances (including underserved neighborhoods) we have a special interest in serving patients who feel uncertain or anxious about the transition into receiving this type of care.

So we create a custom-tailored plan for each patient. When our patients experience that, the transition becomes much easier and more comfortable for them.

PHILOSOPHY

We recognize dying to be a natural, inevitable process when certain therapy is no longer effective. We seek neither to hasten nor prolong the dying process. We believe that palliative care and sensitivity to individual needs will allow dying patients to have full and meaningful lives until death. We support family and friends during the patient's illness and assist them after the patient's death through the bereavement program.

GOALS

Ensure patient/family expectations by providing the highest standards of care. Respect dignity and enhance the quality of life. Reduce pain and other symptoms. Involve the patient and their family/friends in the plan of care. Assist the patient in meeting individual goals. Help the patient and family develop effective coping mechanisms. Provide an atmosphere of comfort and compassion while helping patients, their families and loved ones deal with the emotional impact of death.

PEACE OF MIND AND PROFESSIONAL CARE AT HOME

ABOUT US

Saint Catherine Hospice Inc. is a healthcare center for care of fragile patients. We manage care transition from hospital to home, caregiver to palliative, chronic to end of life.

We are dedicated to provision of comfort and compassionate care for the patient and family education of end of life.

Our patients and their families come first.
We are committed to helping people live their lives to the fullest and in comfort, while surrounded by family and friends. We are kindly aware that every patient is different, and so are the needs of families and caregivers. We want you to know that our team of doctors, nurses, social workers, chaplains, nursing assistants, and volunteers are here to help.

MISSION STATEMENT

We are committed to providing comprehensive, competent, quality care which addresses the physical, social, psychological and spiritual dimensions of care as an integrated whole, promotes comfort and dignity and is consistent with the patient and family needs and goals, as priorities.
