

Take Charge of Your Health with Affordable Physician Supervised Weight Loss Program

Maple Grove, Minnesota Jul 26, 2022 ([IssueWire.com](https://www.issuewire.com)) - Twin Cities Integrative Medicine in Maple Grove, Minnesota is excited to announce a new weight loss program. This program uses a compounded medication called Semaglutide and is physician monitored. Semaglutide is a drug used to treat diabetes that was recently approved by the FDA for weight loss.

This program is physician monitored by Dr. Briana Rueda, who had this to say: "Our compounded medication includes the weight loss medication Semaglutide, as well as BPC-157, a peptide that may help mitigate any potential GI side effects and assist with soft tissue pain and healing. Using a compounded medication also makes it much more affordable."

What's Included in the Weight Loss Program?

- Lab Testing
- Semaglutide Prescription
- Lifestyle Counseling
- InBody Composition Milestone Tracking
- In-Office and Phone Status Consultations

The program cost is \$375 a month.
