Amsterdam, Netherlands Jul 24, 2022 ([Issuewire.com](https://www.issuewire.com)) - Yvonne Padmos launched a [Gold NFT](#) with unlockable content on Monday, July 25, via the [LinkedIn Gold NFT Auction](#) on the [NFT platform Open Sea](#) (First Launch Gold NFT)! A collection of gold utility-enabled PFPs that feature a rich frequency and unique pool traits. What's more, each Metagold unlocks private club membership and additional benefits the longer you hold them. one-time-only release.

Gold is bright, revered, strong, and priceless. It is nearly always connected to the sun, or the pinnacle of spiritual evolution. The heart chakra, throat chakra, third eye chakra, and crown chakra have all been connected to gold in terms of their empowerment. It has a warm energy that calms the body's vibrations and promotes healing. That's what Yvonne Padmos stands for.

Sadly, the artist has been struggling with her own health ever since her car accident in the mountains. As already announced this week, the woman is determined to proceed with her own first movie production. "[The lockdown trap emigrated by accident](#)." published on [IMDB](#). The purpose of this [movie](#) is to outline numerous social issues. There will be the launch of an international health awareness campaign.

With this, she wants to show all her followers the truth behind the scenes. Due to an important factor that I kept secret for years, I can't do certain things. Everyone will know after this movie. Hopefully, they will also understand how and why certain choices were made. It can be portrayed well by the right actress in a film.

A well-made film can have a big impact on society and thus inspire more people to change things. Back in order, technology and manpower. making sure the human heart does its job first. Besides the movie, Yvonne has more [projects](#).

Yvonne Padmos has written a children's book. which she likes to give out to children's homes for free at Christmas. She also wants to appear as a clinic clown in hospitals. She has a lot of respect for every clinic clown and would like to support them. She is already in contact with the foundation. However, they have no idea that she is drawing up a whole plan.

She has several [NFT projects](#) with which she tries to raise money to give as many benefit concerts as possible. The benefit concerts are available in Europe. And with the right funding elsewhere too. Yvonne always had a dream of giving many [benefit concerts](#). She doesn't mind being on stage for free. In fact, this woman prefers to live on stage. "Only then do I feel relaxed and in my element."

However, her team, producers, dancers, backup singers, etc., will not work for free. Yvonne wants to give 777 benefit concerts.

Why 777? Is that a lot? *"It's definitely a lot, but 777 is what I see so often." And I feel I should try to give 777 impressive shows. 777 is also an angel number. "Extra luck! "*

This NFT GOLD collection was created by an angel investor. Gold has been regarded as a unique and valuable commodity throughout history. Owning gold now can be an excellent way to diversify a portfolio and protect against both inflation and deflation. As a universal store of value, gold can also offer financial security during times of macroeconomic and geopolitical unpredictability. The goal is to be on stage as much as possible. The more NFTs sold, the better. The more frequently benefit concerts can be organized, the better.

It is not just an art form. There is unlockable content, * which I can't say anything about yet. However, with these NFT sales, I can commit myself to start mental health awareness campaigns. In 2021 Yvonne was in the Top 25 Thought leader and Influencer I Topic Mental health as well as in the Top 25 of Thought leader and Influencer I Topic Health and wellness at platform thinkers360.

She is even ranked as a top 10 influencer and thought leader on various topics in 2022. * example "future of work. Yvonne does not want to simply write books or documents. This woman likes visible

action for renewal in society. *"It is easy to write documents behind the computer about how things can be improved. However, only with action can you really make a difference."* This requires collaboration.

With 777 benefits, we can support so many charities. With the income from NFT sales and, hopefully, angel investors, I can be assured that there will be 777 benefit shows.

Yvonne wants to be very transparent with the angel investors. For this, she also wants a LIVE doc in production. A live documentary about the production of this movie and an inside peek at the charity concerts. Watch how businesses respond to this concept, whether or not they take part. Everything is shown live by Yvonne Padmos. Watch the audience's reactions as she performs live on stage and with her bloopers! Which well-known actors will be in this movie? Which angel investors are invited to a private dinner with Yvonne?

From a theater performer to an actress in movies? NO! The main character in this movie won't be played by Yvonne Padmos herself. She trusts the Hollywood actress to play her part better on screen.

I let the word "best" pass me by. I may not be the best actress, writer, or designer in the world. But I do know that I like to be creative. And that I like to combine many things. When people can't work together, there are always a lot of technological tools available that do want to work together.

The point is that we always try to get the best out of ourselves. You don't have to compare anything. Creating your own path is much more fun. And sometimes it's easy, and sometimes it's hard. But we learn from that. Find gold and treasure it. Search and you will find it. NFT GOLD makes it simple.
