

Yaw Ababio Boateng, MD, PhD, FACP, a Nephrologist with University of Utah Health

Get to know Nephrologist Dr. Yaw Ababio Boateng, who serves patients in Utah.

New York City, New York Jul 27, 2022 ([IssueWire.com](https://www.issuewire.com)) - A seasoned nephrologist, Dr. Boateng is affiliated with the University of Utah Health, seeing patients at Dixie Dialysis and Kidney Clinic in St. George, as well as Desert Valley Dialysis and Kidney Clinic in Mesquite. He specializes in general nephrology, ICU nephrology; all dialysis modalities - hemodialysis, peritoneal dialysis, and home dialysis; electrolyte abnormalities, and hypertension.

The Dixie Dialysis and Kidney Clinic is located in St. George, Utah. It has 11 dialysis stations and a team of professionals to support the patients receiving dialysis. It also provides care for patients with kidney conditions that include chronic kidney disease, kidney stones, and others.

Located in Mesquite, Nevada, the Desert Valley Dialysis & Kidney Clinic has 10 dialysis stations as well as a kidney (nephrology) clinic in the building. This means patients can go to their dialysis sessions and get follow-up treatment from their nephrology provider at the same place.

With a broad educational background, Dr. Boateng obtained his medical degree from the Kwame Nkrumah University of Science & Technology School of Medical Sciences (KNUST-SMS) in Kumasi, Ghana. He also holds a Doctor of Philosophy degree (Ph.D.) in Clinical Pharmacology from the University of Aberdeen in the UK. Upon relocating to the United States, he completed his internship and residency in internal medicine, and fellowship in nephrology at the Montefiore Medical Center North Division/New York Medical College.

Recently elected as a Fellow of the American College of Physicians (FACP), the doctor is board-certified in nephrology and internal medicine by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Teaching students, he currently serves as an Assistant Clinical Professor of Medicine at the University of Utah. He is a published author of children's books as well as peer-reviewed scientific publications in the British Journal of Pharmacology, the British Journal of Clinical Pharmacology, and the European Journal of Urology & Nephrology.

Nephrology is a specialty of medicine and pediatrics that concerns itself with the kidneys. It is the study of normal kidney function and kidney disease, the preservation of kidney health, and the treatment of kidney disease, from diet and medication to renal replacement therapy. Nephrologists have advanced training in treating kidney disease. They diagnose and treat kidney failure, as well as help patients by prescribing medications, offering special diet advice, and coordinating dialysis care or kidney transplantation when it becomes necessary.
