Dunedin, Florida Aug 26, 2022 (IssueWire.com) - The fabulous performers of [Kikimora Studio](https://www.kikimorastudio.com) will grace the stage again this year at the Wearable Art Fashion Show. The event will take place on Saturday, August 27th at 7 PM at the [Dunedin Fine Art Center \(DFAC\)](https://www.dunedinfineartcenter.com) in Tampa, FL.

Kikimora's contribution to the show will feature Olga Saretsky's designs worn by performers and displayed in a format that has been dubbed "high fashion circus". The high fantasy creations of Olga originated in her dreams as a child and were no doubt influenced by the numerous historical and traditional costumes and lore of her native Kazakhstan.

The event itself is planned to occur simultaneously in two separate facilities. Models will take to the runway in out-of-this-world costumes, makeup and hair designs, and other wearable artistry in the community center's live event. At the same time, DFAC will host a party where the show will be live-streamed on a very large screen. The DFAC event will also include live music and both the "Pre-Glow" and "After Glow" parties.

Tickets begin at \$20 for the DFAC "Pre-Glow" and "After-Glow" Parties then range up to \$135 for VIP seating at the live fashion show.

The show is close to selling out, but additional tickets are available here:
