Las Vegas, Nevada Aug 16, 2022 ([Issuewire.com](https://www.issuewire.com)) - Las Vegas, NV- Well, it looks as though Chesney Claire has done it again with her new single, ***"The Problem"***. Chesney Claire, a 21-year-old Pop/R&B award-winning singer/songwriter/producer, is all the rage this Summer as she keeps showing the world her talent(s).

Jumping from one red carpet event to the next is what's happening now. In the last few weeks, Chesney has walked the red carpet and was a Presenter for "Best Set Design" at the LaJolla, CA Fashion & Film Festival. Just a few days later she was in Atlanta, GA presenting awards on the red carpet for the International Singer Songwriter's Association.

Chesney has worked in every capacity from an award winner to Presenter of awards and has taken some bold strides in modeling. In August 2022 Chesney Claire made it through 7 rounds of the Maxim CoverGirl Contest and finished 4th in the world for the coveted "Maxim CoverGirl" front cover of the magazine but Chesney could not devote enough time to the contest- as she was traveling from state to state during that time. Nevertheless, Chesney was asked to do a model photoshoot for a very well-known Fashion Magazine in California while she was there at the International Film and Fashion Festival. The shoot drew lots of attention from the Fashion Industry and propelled Chesney Claire into the limelight in the Film Industry as well. Chesney is scheduled to star in a feature film with A-list actors that starts filming in March 2023 in Arizona.

Not only has she gained tons of experience in those fields, but her main passion is also music.

Last year Chesney won 25+ Music Industry Awards; including but not limited to Female Vocalist of The Year at the International Singer Songwriter's Association, and at Indie Star Radio in Hollywood, CA. She won (4) World Songwriting Awards, a Nomination from The Hollywood Music In Media Awards, got her first original song in a Television reality series, earned a "Half A Million Streams" Spotify Award, and a coveted Josie Music Awards Nomination amongst others.

Now Chesney Claire is learning music production and engineering.

Chesney won a Hermes Award this year for her music video that accompanied her latest single release "**Not In The Mood**". That song was written by Chesney, produced by Chesney, and engineered by her.

Chesney's latest release "**The Problem**" is scheduled to debut on August 26th, 2022- And it's already been nominated to receive a Grammy at this year's Grammy Awards. (Not to mention that Chesney just also became a voting member of the Recording Academy- Class of 2022). Chesney's nominations are for "Best New Artist" and "Single of The Year" and although Academy Members may not know Chesney yet, her talent and absolute resolve to make it in the Music business shines brighter than all the stars in the sky.

"I know God has blessed me with undeniable talent. My goal is to make Him proud by using my talents to the best of my ability. I want to shine! I have a lot of Angels to make proud," Chesney says.

Quite sure there will be many more opportunities for Chesney Claire as she continues down this road to international stardom.

"I'm now writing all my own songs. I'm producing my own songs, and I am engineering everything myself. Hopefully, that will count for something and help advance my career quickly", she said.

The new song "**The Problem**" is a saucy, hot tropical Afro Pop dance vibe. It will be available on all streaming platforms on **August 26th** so please stream it. Listen on repeat, and share.

Chesney has just been commissioned to write a theme song for another upcoming feature film and is working on that now.

We all see great things in her future. She's the hardest-working Female in the entertainment industry right now and if you haven't heard of her, it's time to do some research!
