[Video Downloader](#) is the most basic module in [CleverGet](#). It is a formidable video downloader that can download movies, TV shows, live stream videos, video clips, and music videos from 1000+ websites, such as YouTube, Twitter, Facebook, Vimeo, Instagram, etc. In terms of download quality, it is capable of downloading videos ranging from 480p, 720p, 1080p, 4K, and even 8K with 320 Kbps audio quality. More importantly, it helps users to save time on video download via multitasking, playlist downloading, and hardware acceleration. What's more, it has a built-in browser and player, covering all aspects of searching, downloading, and playing videos. Now, with a 50% discount, it costs only \$39.97 for this event.

In addition to the regular Video Downloader, CleverGet also has modules specially designed for subscription-based services, such as [Amazon Downloader](#), Netflix Downloader, Disney+ Downloader, Hulu Downloader, HBO Downloader, etc. Among them, the first three participants in this activity, saved movies and TV shows from Amazon Prime Video, Netflix, and Disney Plus respectively. Apart from the above features, Amazon/Netflix/Disney+ Downloader also converts downloads to common MP4/MKV files, so that users can play and watch Amazon/Netflix/Disney+ videos offline on any MP4/MKV compatible players and devices. Better yet, it detects and provides all audio tracks and subtitles in a different language for users to choose and download. Furthermore, those subtitles can be saved separately in SRT/SUP files, or reassembled into video as one file. Compared to Video Downloader, the discounted price of these three modules is \$10 more, but it is still very irresistible.

Moreover, for those sites that are difficult to detect with CleverGet, Leawo Software specially offers the Screen Recorder as a giveaway to help users to record and capture all activities from their computer screen. Plus, users can freely add audio narration, webcam overlay, cursor movement, and even doodles to their recordings.
