George Town, Penang Aug 12, 2022 ([Issuewire.com](https://www.issuewire.com)) - Grille Tech Sdn Bhd is pleased to announce the official launch of its website, ready to serve the audience more effectively. Grille Tech Malaysia is a full-service metal stamping company recognized worldwide as a leading manufacturer for OEM and ODM clients. From innovative product development to creative tool design and unique manufacturing solutions, their capability includes perforation, deep drawn, progressive, fine blanked stampings, die casting, and final product assembly. Grille Tech has the capability in handling projects from sketches up to fully assembled products.

Grille Tech handles core businesses such as Perforated Speaker Net, Speaker Grille, Speaker Frame, Metal Stamping, Sheet Metal, Tooling Fabrication & Mechanical Assembly, which are described in more detail on their newly launched website. Their website serves as an information-sharing platform to acknowledge the targeted audience and provide an easier way to reach them. Hence, learn more about Grille Tech, one of the [sheet metal fabrication Malaysia](#) providers at <https://grilletech.com.my/>.

The new website is developed and maintained by Zoewebs which is one of the best website design and digital marketing companies in Malaysia with over 15 years of experience. Grille Tech Sdn Bhd is believed to strive for the best services, after the launch of the website in order to address customer needs effectively and precisely. It contains more information and details as references for the customers and inspires more ideas on the [metal stamping](#) process and the finished products. Last but not least, the launch of this new website will definitely benefit the customers to get in touch with them for more deliberations.

1 Metal Speaker Grille

The speaker grille is just as vital as the speaker itself as it protects the important components in a speaker, ensuring that the sound quality produced is never compromised. As a result, we not only manufacture high-quality speaker grilles but also provide a variety of appearances to meet our clients' specific requirements, such as woven bar grilles.

2 Automotive Parts, Jig & Fixtures

As we acknowledge the significance of the heavy-duty and automotive industries, we expand our production to include automotive parts, jigs, and fixtures, brackets of jigs and fixtures, we produce checking jigs, welding jigs etc. For automotive parts, we do supply motor cycle parts, including fuel tanks, motorcycle frame brackets etc.
