

AICRA Organizes 6th World Robotics Championship Series - TechnoXian'22

India Secures Highest Gold and Silver in World Robotics Championship – TechnoXian'22

New Delhi, Delhi Aug 23, 2022 ([Issuewire.com](https://www.issuewire.com)) -

- 1452 Teams with 7200+ participants from 15 countries.
- 36 Teams win awards and certificates in 12 categories of competitions.
- 150+ Technology Innovations and Solutions showcased by Young Students.
- International Ranking of Robo Clubs introduced by AICRA.

Aiming to boost sustainable [STEM](#) education culture and promote tech-sports across, the **6th edition of the world's largest Robotics Championship – TechnoXian'22** organized by All India Council for Robotics & Automation ([AICRA](#)) at Indira Gandhi Stadium, New Delhi on the 21st and 22nd Aug'22

2 days of the tournament has witnessed more than 7200 young participants from 15 countries including India, Iran, Bangladesh, Uzbekistan, Zimbabwe, Ghana, Sri Lanka, Malaysia, Maldives, Nigeria, Egypt, Philippines, Kyrgyzstan, Tunisia, and Nepal. 1452 Teams prepared themselves for 12 categories of robotics challenges including Robo Soccer, Robo Race, BotsCombat, Maze Solver, Drone Race, RC

Plane, Water Rocket, Fastest Line Follower, and Innovations. 36 winning teams received certificates from AICRA and an award of 2 million USD at the end of the tournament.

AICRA have also introduced an International Committee of Robotics that would work on the expansion of TX RoboClubs in various countries and will start ranking them based on their performance in various national and international tournaments. The members of such RoboClubs would be provided multilingual free online training on various technologies, a platform to interact across borders and explore new ideas and come for competitions. These clubs would also receive lots of benefits in terms of funding and sponsorship to meet their expenses.

As per Rajkumar Sharma, President-AICRA “TechnoXian aims at accelerating technological innovations and environment for tech-sports across. We aim to set up 10000 TX RoboClubs in 50+ countries by next year's tournament and engage 1 million members. International Ranking of [RoboClubs](#) and its members would actually encourage youngsters and give them the motive to explore and perform in technologies.”

In the past 5 editions, TechnoXian has become one of the world's largest robotics championship event series in terms of youth participation. It accumulates youngsters from all over the world together to be part of the biggest robotics championship and commemorate with knowledge and create an unmatched ambiance and aura of learning as well as competing with fun under the expert's guidance of research personnel.

Along with the TechnoXian tournament, EdTech Expo also has been organized where [EdTech](#) companies and institutions got the right opportunities to collaborate, forge partnerships, make deals and grow in their educational processes. The EdTech Expo will provide everything that STEM needs to find a space in the ever-growing market and redefine the future.

All further updates regarding the event are available on the official online portal of TechnoXian
